NO EFFECT DETERMINATION REQUEST
DFW 866 (Rev 01/13)

Lead agencies or project applicants that anticipate their project having no effect on fish and wildlife may use this form to request a "No Effect" Determination (NED) from the California Department of Fish and Wildlife (Department). This form prompts submittal of required information specified in the California Code of Regulations (Title 14 Section 753.5(c)(1)(A)). The California Environmental Quality Act (CEQA) document that was prepared for the project or a link to the webpage where the CEQA document has been published must also be provided with the written request.

Requests should be submitted when the CEQA document is released for public review, or as early as possible in the public comment period. Requests should include sufficient documentation to support a no effect determination, and must be submitted to the appropriate Regional Office. Requests for projects with multi-region or statewide impacts should be submitted to the Habitat Conservation Planning Branch.

If insufficient documentation is submitted, or if the project will cause a physical disturbance to habitat regardless of the magnitude of effect or size of a project a NED will not be issued. Please refer to Title 14 California Code of Regulations 753.5(d) for determination criteria.

Justification of No Effect Determination [Explain how the proposed project has no effect on fish and wildlife consistent with 14 CCR § 753.5(d)]:

CEQA Document Type: Statutory Exemption, Section 15262-Feasibility & Planning Studies. LAFCO is mandated to conduct a services review (GC 56430) and a sphere of influence update (GC 56425) by 01/01/08, and is further required to review these two actions every five years thereafter, as needed. All local agencies must have these updated studies reviewed and established before LAFCO can approve any future boundary change proposals.
